

## Demonstration of MVC

<b>Name:</b>	<b>SRN: PES1UG19CS185</b>	
<b>Harshita Vidapanakal</b>		

### Problem Statement:

The given application collects various information of students and stores it in a mySQL database for future uses. That is, it acts a portal to fill a form. It also computes the grade based on the given CGPA value.

### Model Component:

```
package mvc;

public class Model {
    private String firstname;
    private String lastname;
    private String emailId;
    private String phoneNo;
    private String CGPA;
    private String semester;
    public Model(String firstname, String lastname, String emailId, String phoneNo,
String CGPA, String semester) {
        this.firstname = firstname;
        this.lastname = lastname;
        this.emailId = emailId;
        this.phoneNo = phoneNo;
        this.CGPA = CGPA;
        this.semester = semester;
    }
    public String getFirstname() {
        return firstname;
    }
    public String getEmailId() {
        return emailId;
    }
}
public void setEmailId(String emailId) {
    this.emailId = emailId;
}
public String getPhoneNo() {
    return phoneNo;
}
public void setPhoneNo(String phoneNo) {
    this.phoneNo = phoneNo;
}
public String getCGPA() {
    return CGPA;
}
public void setCGPA(String CGPA) {
```

## Demonstration of MVC

```
        this.CGPA = CGPA;
    }
    public String getSemester() {
        return semester;
    }
    public void setSemester(String semester) {
        this.semester = semester;
    }
    public void setFirstname(String firstname) {
        this.firstname = firstname;
    }
    public String getLastname() {
        return lastname;
    }
    public void setLastname(String lastname) {
        this.lastname = lastname;
    }
}
```

### View Component:

```
package mvc;

import java.awt.BorderLayout;
import javax.swing.GroupLayout;
import javax.swing.JButton;
import javax.swing.JFrame;
import javax.swing.JLabel;
import javax.swing.JTextField;

public class View {
    private JFrame frame;
    private JLabel firstnameLabel;
    private JLabel lastnameLabel;
    private JLabel emailIdLabel;
    private JLabel phoneNoLabel;
    private JLabel CGPALabel;
    private JLabel semesterLabel;
    private JTextField firstnameTextfield;
    private JTextField lastnameTextfield;
    private JTextField emailIdTextfield;
    private JTextField phoneNoTextfield;
    private JTextField CGPATextfield;
    private JTextField semesterTextfield;
    private JButton SaveButton;

    public View(String title) {
        frame = new JFrame(title);
        frame.getContentPane().setLayout(new BorderLayout());
        frame.setDefaultCloseOperation(JFrame.EXIT_ON_CLOSE);
        frame.setSize(500, 300);
        frame.setLocationRelativeTo(null);
    }
}
```

## Demonstration of MVC

```
frame.setVisible(true);
// Create UI elements
firstnameLabel = new JLabel("Firstname :");
lastnameLabel = new JLabel("Lastname :");
emailIdLabel = new JLabel("Email ID :");
phoneNoLabel = new JLabel("Phone Number :");
CGPALabel = new JLabel("CGPA :");
semesterLabel = new JLabel("Semester :");

firstnameTextfield = new JTextField();
lastnameTextfield = new JTextField();
emailIdTextfield = new JTextField();
phoneNoTextfield = new JTextField();
CGPATextfield = new JTextField();
semesterTextfield = new JTextField();

SaveButton = new JButton("Save");

GroupLayout layout = new GroupLayout(frame.getContentPane());
layout.setAutoCreateGaps(true);
layout.setAutoCreateContainerGaps(true);
layout.setHorizontalGroup(layout.createSequentialGroup()

.addGroup(layout.createParallelGroup(GroupLayout.Alignment.LEADING).addComponent(first
nameLabel)
    .addComponent(lastnameLabel)
    .addComponent(emailIdLabel)
    .addComponent(phoneNoLabel)
    .addComponent(CGPALabel)
    .addComponent(semesterLabel))

.addGroup(layout.createParallelGroup(GroupLayout.Alignment.LEADING).addComponent(first
nameTextfield)
    .addComponent(lastnameTextfield)
    .addComponent(emailIdTextfield)
    .addComponent(phoneNoTextfield)
    .addComponent(CGPATextfield)
    .addComponent(semesterTextfield))

.addGroup(layout.createParallelGroup(GroupLayout.Alignment.LEADING).addComponent(SaveB
utton)));

layout.setVerticalGroup(layout.createSequentialGroup()

.addGroup(layout.createParallelGroup(GroupLayout.Alignment.BASELINE).addComponent(firs
tnameLabel)
    .addComponent(firstnameTextfield))

.addGroup(layout.createParallelGroup(GroupLayout.Alignment.BASELINE).addComponent(last
nameLabel)
```

## Demonstration of MVC

```
.addComponent(lastnameTextfield).addComponent(SaveButton))

.addGroup(layout.createParallelGroup(GroupLayout.Alignment.BASELINE).addComponent(emailIdLabel)
.addComponent(emailIdTextfield))

.addGroup(layout.createParallelGroup(GroupLayout.Alignment.BASELINE).addComponent(phoneNoLabel)
.addComponent(phoneNoTextfield))

.addGroup(layout.createParallelGroup(GroupLayout.Alignment.BASELINE).addComponent(CGPA Label)
.addComponent(CGPA Textfield))

.addGroup(layout.createParallelGroup(GroupLayout.Alignment.BASELINE).addComponent(semesterLabel)
.addComponent(semesterTextfield))

.addGroup(layout.createParallelGroup(GroupLayout.Alignment.BASELINE).addComponent(Save Button)));

frame.getContentPane().setLayout(layout);
}
public JLabel getEmailIdLabel() {
    return emailIdLabel;
}
public void setEmailIdLabel(JLabel emailIdLabel) {
    this.emailIdLabel = emailIdLabel;
}
public JLabel getPhoneNoLabel() {
    return phoneNoLabel;
}
public void setPhoneNoLabel(JLabel phoneNoLabel) {
    this.phoneNoLabel = phoneNoLabel;
}
public JLabel getCGPALabel() {
    return CGPALabel;
}
public void setCGPALabel(JLabel cGPALabel) {
    CGPALabel = cGPALabel;
}
public JLabel getSemesterLabel() {
    return semesterLabel;
}
public void setSemesterLabel(JLabel semesterLabel) {
    this.semesterLabel = semesterLabel;
}
public JTextField getEmailIdTextfield() {
    return emailIdTextfield;
}
```

## Demonstration of MVC

```
public void setEmailIdTextfield(JTextField emailIdTextfield) {
    this.emailIdTextfield = emailIdTextfield;
}
public JTextField getPhoneNoTextfield() {
    return phoneNoTextfield;
}
public void setPhoneNoTextfield(JTextField phoneNoTextfield) {
    this.phoneNoTextfield = phoneNoTextfield;
}
public JTextField getCGPATextfield() {
    return CGPATextfield;
}
public void setCGPATextfield(JTextField cGPATextfield) {
    CGPATextfield = cGPATextfield;
}
public JTextField getSemesterTextfield() {
    return semesterTextfield;
}
public void setSemesterTextfield(JTextField semesterTextfield) {
    this.semesterTextfield = semesterTextfield;
}
public JButton getSaveButton() {
    return SaveButton;
}
public void setSaveButton(JButton saveButton) {
    SaveButton = saveButton;
}
public JFrame getFrame() {
    return frame;
}
public void setFrame(JFrame frame) {
    this.frame = frame;
}
public JLabel getFirstnameLabel() {
    return firstnameLabel;
}
public void setFirstnameLabel(JLabel firstnameLabel) {
    this.firstnameLabel = firstnameLabel;
}
public JLabel getLastnameLabel() {
    return lastnameLabel;
}
public void setLastnameLabel(JLabel lastnameLabel) {
    this.lastnameLabel = lastnameLabel;
}
public JTextField getFirstnameTextfield() {
    return firstnameTextfield;
}
public void setFirstnameTextfield(JTextField firstnameTextfield) {
    this.firstnameTextfield = firstnameTextfield;
}
```

## Demonstration of MVC

```
}  
public JTextField getLastnameTextfield() {  
    return lastnameTextfield;  
}  
public void setLastnameTextfield(JTextField lastnameTextfield) {  
    this.lastnameTextfield = lastnameTextfield;  
}
```

### Controller Component:

```
package mvc;  
  
import java.sql.Connection;  
import java.sql.DriverManager;  
import java.sql.Statement;  
  
import javax.swing.JOptionPane;  
  
public class Controller {  
    private Model model;  
    private View view;  
    public Controller(Model m, View v) {  
        model = m;  
        view = v;  
        initView();  
    }  
    public void initView() {  
        view.getFirstnameTextfield().setText(model.getFirstname());  
        view.getLastnameTextfield().setText(model.getLastname());  
        view.getEmailIdTextfield().setText(model.getEmailId());  
        view.getPhoneNoTextfield().setText(model.getPhoneNo());  
        view.getCGPATextfield().setText(model.getCGPA());  
        view.getSemesterTextfield().setText(model.getSemester());  
    }  
    public void initController() {  
        view.getSaveButton().addActionListener(e -> SaveButton());  
    }  
    private void SaveButton() {  
  
        model.setFirstname(view.getFirstnameTextfield().getText());  
        model.setLastname(view.getLastnameTextfield().getText());  
        model.setEmailId(view.getEmailIdTextfield().getText());  
        model.setCGPA(view.getCGPATextfield().getText());  
        model.setPhoneNo(view.getPhoneNoTextfield().getText());  
        model.setSemester(view.getSemesterTextfield().getText());  
  
        if(Float.parseFloat(model.getCGPA()) > 9.00){
```

## Demonstration of MVC

```
JOptionPane.showMessageDialog(null,"Name: " + model.getFirstname() +
model.getLastname() + "\nCGPA : " + model.getCGPA() + "\nGrade : S", "PES1UG19CS185",
JOptionPane.INFORMATION_MESSAGE);
}
else if(Float.parseFloat(model.getCGPA()) >= 8.00 &&
Float.parseFloat(model.getCGPA()) < 9.00){
    JOptionPane.showMessageDialog(null,"Name: " + model.getFirstname() +
model.getLastname() + "\nCGPA : " + model.getCGPA() + "\nGrade : A", "PES1UG19CS185",
JOptionPane.INFORMATION_MESSAGE);
}
else if(Float.parseFloat(model.getCGPA()) >= 7.00 &&
Float.parseFloat(model.getCGPA()) < 8.00){
    JOptionPane.showMessageDialog(null,"Name: " + model.getFirstname() +
model.getLastname() + "\nCGPA : " + model.getCGPA() + "\nGrade : B", "PES1UG19CS185",
JOptionPane.INFORMATION_MESSAGE);
}
else if(Float.parseFloat(model.getCGPA()) >= 6.00 &&
Float.parseFloat(model.getCGPA()) < 7.00){
    JOptionPane.showMessageDialog(null,"Name: " + model.getFirstname() +
model.getLastname() + "\nCGPA : " + model.getCGPA() + "\nGrade : C", "PES1UG19CS185",
JOptionPane.INFORMATION_MESSAGE);
}
else {
    JOptionPane.showMessageDialog(null,"Name: " + model.getFirstname() +
model.getLastname() + "\nCGPA : " + model.getCGPA() + "\nGrade : D", "PES1UG19CS185",
JOptionPane.INFORMATION_MESSAGE);
}
try {
    Connection conn =
DriverManager.getConnection("jdbc:mysql://localhost:3306/mvc", "root", "abcd1234");
    String query = "INSERT INTO details values('" + model.getFirstname() + "','" +
model.getLastname() + "','" + model.getEmailId() + "','" +
model.getPhoneNo() + "','" + model.getCGPA() + "','" +
model.getSemester() + "')";

    Statement sta = conn.createStatement();
    int x = sta.executeUpdate(query);
    if (x == 0) {
        JOptionPane.showMessageDialog(null, "This is already exists");
    } else {
        JOptionPane.showMessageDialog(null,"Your data has been sucessfully
uploaded");
    }
    conn.close();
}
catch (Exception exception) {
    exception.printStackTrace();
}
}
}
```

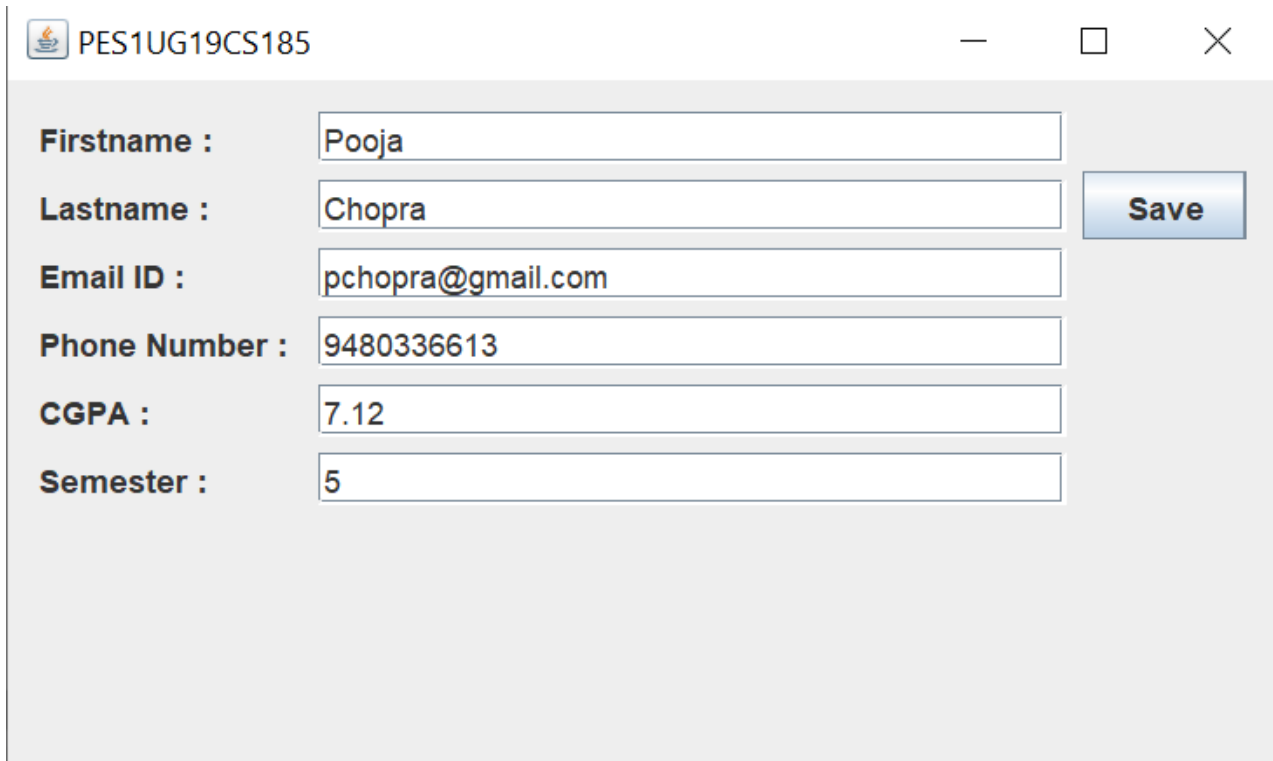

## Demonstration of MVC

### Main Component:

```
package mvc;

public class App {
    public static void main(String[] args) {
        // Assemble all the pieces of the MVC
        Model m = new Model("Harshita", "Vidapanakal", "harshita.vidapanakal@gmail.com",
"9000658884", "9.16", "6");
        View v = new View("PES1UG19CS185");
        Controller c = new Controller(m, v);
        c.initController();
    }
}
```

### Output Screen Shots:

<b>Firstname :</b>	<input type="text" value="Pooja"/>
<b>Lastname :</b>	<input type="text" value="Chopra"/>
<b>Email ID :</b>	<input type="text" value="pchopra@gmail.com"/>
<b>Phone Number :</b>	<input type="text" value="9480336613"/>
<b>CGPA :</b>	<input type="text" value="7.12"/>
<b>Semester :</b>	<input type="text" value="5"/>

## Demonstration of MVC

Database Before clicking Save:

The screenshot shows a database management tool interface. On the left, the 'SCHEMAS' pane displays the 'mvc' database structure, including tables, columns, indexes, foreign keys, triggers, views, stored procedures, and functions. The 'details' table is selected. The main query editor shows a query: `select * from details;`. The 'Result Grid' displays the following data:

firstname	lastname	emailID	phoneNo	CGPA	semester
Harshita	Vidapanakal	harshita.vidapanakal@gmail.com	9000658884	9.16	6
Anusha	Vidapanakal	harshita.vidapanakal@gmail.com	9000658884	8.45	6
Harshita	Vidapanakal	harshita.vidapanakal@gmail.com	9000658884	9.16	6
H	Vidapanakal	harshita.vidapanakal@gmail.com	9000658884	7.34	6
Harshita	Vidapanakal	harshita.vidapanakal@gmail.com	9000658884	9.16	6

Database after clicking Save:

The screenshot shows the same database management tool interface after clicking 'Save'. The 'details' table now contains an additional row:

firstname	lastname	emailID	phoneNo	CGPA	semester
Harshita	Vidapanakal	harshita.vidapanakal@gmail.com	9000658884	9.16	6
Anusha	Vidapanakal	harshita.vidapanakal@gmail.com	9000658884	8.45	6
Harshita	Vidapanakal	harshita.vidapanakal@gmail.com	9000658884	9.16	6
H	Vidapanakal	harshita.vidapanakal@gmail.com	9000658884	7.34	6
Harshita	Vidapanakal	harshita.vidapanakal@gmail.com	9000658884	9.16	6
Pooja	Chopra	pchopra@gmail.com	9480336613	7.12	5

Database:

Database Used: MySQL

To connect the program with the MySQL database, we use the JDBC driver which is a JAR file. The login credentials have to be passed in the program. The table and the database have been created prior.

Database: mvc

Table: details

Attributes: First name, Last name, Email Id, Phone No, CGPA and Semester

## Demonstration of MVC

### Technologies /Tools used:

- Java 8
- MySQL
- Javax.Swing
- Java.sql
- Java.awt
- Jdbc
